TRANSCRIPT INTERVIEW

First interview

1. Researcher : What do you prepare to join Speech Competition?

Responden : basically, I think preparation has a big roles in every speech competition. For me I always practiced my three magical words is about 3M. The first M is matter, the second is about manner and the last M is about method. These three elements support each other to help me to give best performance in every speech competition. Matter is about the content, the element has a big roles in your speech competition because it content about the problem you will give to your audience. Manner is about the way and how you control your emotion, the way and how you can control your confident and your stage. And the last but not least is about method, it is about process. The big effort you will take in your process, the big possibilities to follow your result.

Researcher : where you doing to practice speech?

Responden : well usually I do practicing when I am in my school. I do practiced with my English teacher and when I am in my house I do practiced with my mom. But sometimes my mother couldn’t become my partner, so I use media like a mirror to help me practicing about my speech competition

Researcher : are you also watching youtube to be your reference?

Responden : Well sometimes I use youtube as my reference and it give a lot of good impact to always improve which one the way and how to give a good speech I can use. I can apply it to my practicing and it is really effective to help me
2. Researcher : How do you practice to prepare Speech Competition?

Responden : someone ever told me that practice is makes perfect. More you practice more possibilities you will get to have a best performance in your speech competition. I want to give an advice to you if you want to do, good effort the big effort at least please do practice five times at own house. It will really support you and to help you to give the best performance in your speech competition.

Researcher : Okay, you say that you use five times to learn speech in your house. You can mention!

Responden : well i couldnt sure which time I usually use to do practice. But I always do practiced when I feel like I have a free time, so it will help me easier to control and to manage my times, to do practiced or just learning English or do my other task.

3. Researcher : How to manage your confident when you are in competition?

Responden : well.. I always increase my confidence when I do practice, because the more you practice it will help you easier to control your emotinal, to control your confidence. Realizing or not those confidence thing will easly grow in your self when you are on the stage to give your speech.

Researcher : who teach you about self confidence?

Responden : the first person who taught me about self confidence is my mom, she taught me to use mirror to as my media to control my emotion to control my confident. Cause with using mirror I can see my own self standing in front of mirror, I can see my own expression and I can see my gesture. So I can improve my self to become a better public speaker in giving some speech.
4. Researcher : What strategies do you use to understand and master speech materials?

Responden : basically, I dont use strategies. I just do research because I belive that every speech competition the comedy always give problem or a topic, a theme that you need to take to give a good speech in your speech competition. From that research you cand find the background, you can find the problems that crucial in your environment, that is really happening in your environment and you can find these problems, and with the good critical thinking it was support you to have a good analysis. With the good analysis you will created a good argument at least you can created two arguments on your speech, after that we need to find a solution. What is the best solution, what is the best way to solve the problems and the last but not least you cand find the conclusion of your whole speech material

5. Researcher : Are the strategies from yours or others?

Responden : well.. when I was at the Junior High School my coach give me the details of how to become a good public speaker. He taught me to do good riset to find the best background, to find the best problems, argument and solution to your public

6. Researcher : Why do you choose those strategies?

Responden : I think those strategies is really the most efficient way to solve your problems because with research it will really make the people to believe our speech text. To understand more about speech text, it will easier to them to understand what I will talking about. So, to our speech materials we also become useful to everyone
7. **Researcher**: What problems do you faced?

**Responden**: well.. I think the first time I join English Competition my first problem is about lazinness because I didn’t know about the practice, about the practice makes perfect. So I just being lazy an a day because I feel like I don’t want do practizing because I feel so lazy, but when I knew about practice make perfect, it is support me more. It help me more to control my laziness that the more you practice the more possibilities you will get do a best performance in your speech competition

**Researcher**: Okay, you said that you have a problems and I will ask you. How to solve your problems?

**Responden**: I think the best way to solve my hardest problem in my English Competition is about imagining about my goals. When I can reach my goals that my goals is about being a good public speaker. It will help me to control my laziness, to control my self to always do practice. So that I will easier to reach my dream to become a good public speaker.

8. **Researcher**: What benefits do you get from the strategies?

**Responden**: having a good materials is really important in your every speech competition. With the good material, with the good effort, with the big effort and supported with the good confidence, it is really help you to give the best performances in speech competition. With the best performances it will easier for you to engage the interest of people, to take interest of the audience. It will easy to understand what are you talking about, they will acknowledge about your speech. They will take about value about the speech. So that you can become a more
useful person by having a best performance in your speech competition. So that is
the most efficient way that I usually do in my every Speech Competition.
