

Student Public Speaking Activity To Promote Critical Thinking Skill

Description: Public Speaking To Promote Critical Thinking Skill Student

Nama : Nadya Noerfadilla

Pembimbing 1: Dr. Elok Putri Nirmasari, S. Pd, M.Pd

Pembimbing 2: Dr. Ana Maghfiroh, M. Pd, B.I

Description

Critical Thinking is the ability to think clearly, logically, and systematically, when analyzing information and solving problems. It involves evaluating evidence, identifying well-reasoned conclusions. Rather than relying on emotions or personal opinions, critical thinking encourages objective and reflective judgment.

In the educational context, critical thinking enables students to move beyond memorization and passive learning. It promotes active engagement, questioning of ideas, and careful evaluation of information. Core elements of critical thinking include interpretation, analysis, evaluation, inference, explanation, and self reflection. Developing these skills helps individuals become independent learners, capable problem solvers, and thoughtful decision-makers in both academic and real-life situations.
